

REMARKS

INTRODUCTION:

In accordance with the foregoing, the specification has been amended to incorporate the dependency of the instant application as set forth in box 21 of the Continuing (1.53(b)) Utility Patent Application Transmittal filed with the instant application so as to more clearly comply with the requirements of 35 U.S.C. §120. No new matter is being presented, and approval and entry of the foregoing amendments are respectfully requested.

It is respectfully submitted that the amendment of the specification does not involve a reopening of prosecution and is therefore appropriate for approval and entry in an amendment under 37 CFR 1.312. MPEP 714.16.

Claims 1-5 are pending and indicated as allowed.

CONCLUSION:

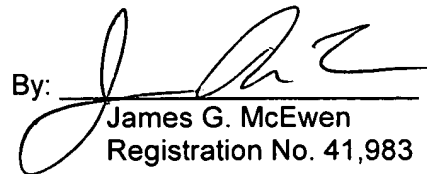

In accordance with the foregoing, it is respectfully submitted that all outstanding objections and rejections have been overcome and/or rendered moot. And further, it is respectfully submitted that all pending claims patentably distinguish over the prior art. Thus, there being no further outstanding objections or rejections, the application is submitted as being in condition for allowance which action is earnestly solicited.

If the Examiner has any remaining issues to be addressed, it is believed that prosecution can be expedited by the Examiner contacting the undersigned attorney for a telephone interview to discuss resolution of such issues.

If there are any additional fees associated with the filing of this Amendment, please charge the same to our Deposit Account No. 503333.

Respectfully submitted,

STEIN, MCEWEN & BUI LLP
